CLEAR ALIGNER TREATMENT

Do you want straighter teeth without having to endure years of wearing unattractive and uncomfortable metal braces?

Clear Aligner may be a beneficial solution for you. We offer Clear Aligner treatment in addition to our traditional orthodontic treatments. Aligners are clear, removable trays made from a custom-fitted plastic that work to shift your teeth gradually and gently into alignment for a straight, healthy-looking smile. These teeth aligners are virtually invisible, easy to remove for eating and cleaning, and have the ability to straighten your teeth in a relatively quick amount of time.

WHAT CAN CLEAR ALIGNER CORRECT?

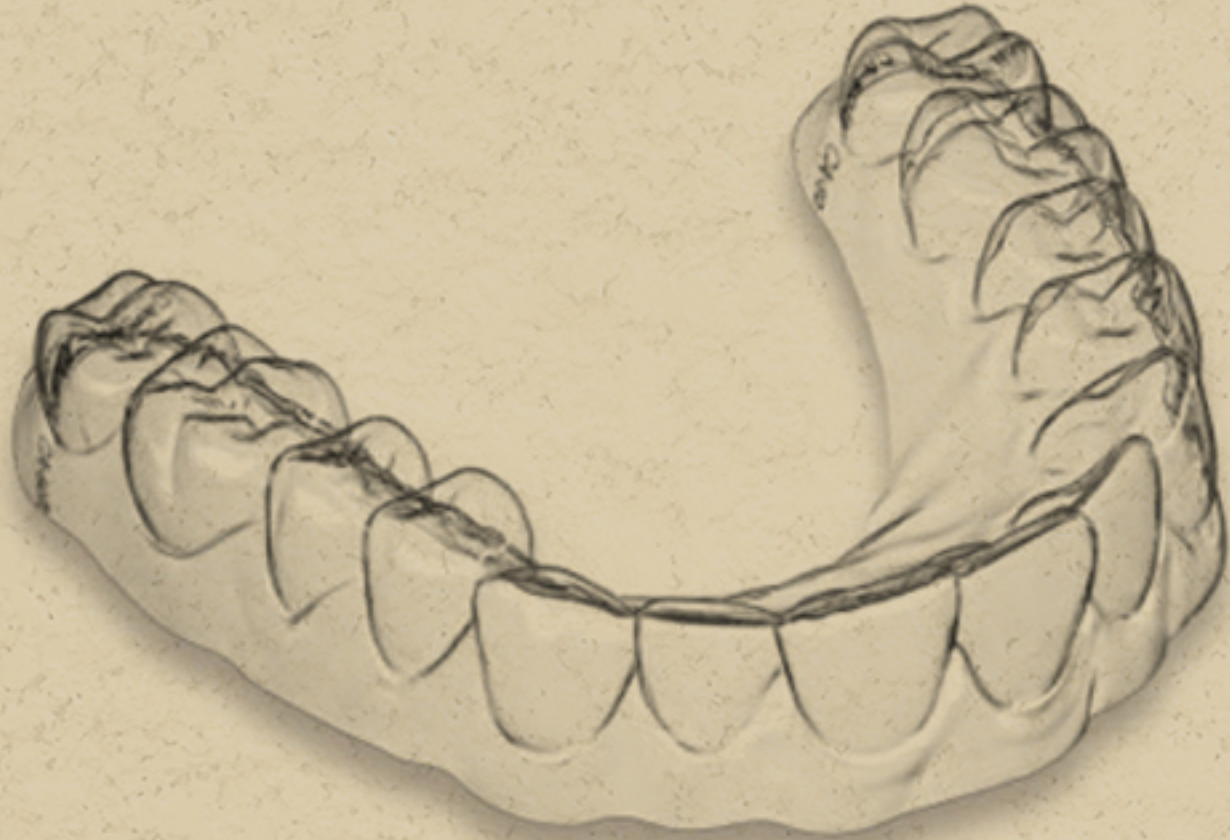

Clear Aligners can correct a variety of common orthodontic concerns, such as:

- ✓ Crowded or overlapping teeth.
- ✓ Gaps or spaces between teeth.
- ✓ Overbite or underbite.
- ✓ Malocclusion ("poor bite"), where teeth do not meet correctly when the jaw is closed.

CLEAR ALIGNER TREATMENT

- ✓ Inconspicuously clear design that allows you to straighten your teeth without noticeable brackets and wires distracting from your smile.
- ✓ Smooth and comfortable fit that is custom-made for your mouth, helping you avoid the discomfort associated with traditional metal braces.
- ✓ Easy-to-remove alignment trays that allow you to eat all of your favorite foods without restriction.
- ✓ Simple maintenance, since you can remove the trays as needed to clean them and brush your teeth.
- ✓ Fast results, with many individuals achieving straight teeth in about a year or less (results vary per patient).

CREATING LIFELONG SMILES

"I had Invisalign done with Dr. Patel, and it was a perfect experience from beginning to end. He is a perfectionist and was attentive and professional from the initial consultation through to post-treatment. I've had orthodontic work done before and it can be a confusing and daunting process, but Dr. Patel provided confident and reassuring guidance the whole way."
